

## HYDRAULIC THUMB ON STICK AXLE

Fixed on the stick axle, this thumb design follows the rotation of your bucket and allows maximum yield when performing your work to ease all your work, regardless of the task ahead. Our improved designs allow you to maintain good visibility and are easily adaptable to your quick coupler and bucket. It's also available in different sizes, for any type of excavator. Features an XHD hydraulic cylinder with bolt-on head, integrated stroke absorber and oversized rod for intensive work.

**Choice of Two Profiled  
or Four Tines**

**135° Rotation**

**XHD Cylinders Included  
From 10 to 40 tons**
